

Vote for Kevin W Packer as your school board member.

We together will do good things, an example of what we have done is:

We did NOT raise taxes this year and last as many school districts in the state have.

We have kept class room sizes small.

There have been many difficult decisions made and our budget is balanced.

Thanks for your friendship. As you know I am easy to contact with questions and concerns you feel are important and need to be addressed. I am not just promising to listen, I have proven it. And we together have accomplished many good things.

Quick fix solutions are sometimes more popular, but many times have unintended long term consequences. We have the ability together to look at pressing issues and make decisions which will benefit us all not only now, but in the future. This I have done thanks to your input and support. Having a listening member on your school board is obviously very important. I will continue to be that representative.

What sets me apart from my opponent are my qualifications & experience for the job.

I do not have a personal agenda. Serving you is my expectation. I am your current Board Member and father of five children; all five attended school in Box elder School District grades 1 through 12. All five graduated from Box Elder High School. This gives me great insights to the needs of children and the importance of continuing good education.

Kevin W. Packer
